Tuesday, March 31 at 6:00PM

Amy Barron
PhD (Toronto)
Faculty - Fleming College: Museum Management, Curator - Clarington Museum and Archives

Agatha Christie, Archaeology and Alzheimer’s.

If you don’t know what these three things have in common, then join us to learn how the great mystery novelist’s life is revealed within the pages of her books. Her love of the Middle East and the life she lived with her famous archaeologist husband provided the basis for many of her greatest novels including Murder on the Orient Express, Death on the Nile, and Murder in Mesopotamia. And now her novels are being used to unravel the mysteries of the human mind.

Dinner 6PM/ Lecture 7PM
